# COSMOPOLITAN

THE GLAMOUR OF MARBLE

7 effetti marmo differenti, 4 superfici, 6 formati dal 800x800 al 1200x2780 a cui si aggiungono le composizioni a macchia aperta. Il fascino del marmo si apre a un mondo di possibilità compositive per l'interior design.

Seven different marble effects, four finishes, six sizes from 800x800 up to 1200x2780, as well as striking, bookmatch compositions.

The allure of marble opens up a world of possible compositions for interior designs.

7 effets marbre différents, 4 surfaces, 6 formats du 800x800 au 1200x2780 auxquels s'ajoutent les compositions bookmatch.

Le charme du marbre s'ouvre à un monde de possibilités de composition pour le design d'intérieur.

7 verschiedene Marmoroptiken, 4 Oberflächenausführungen, 6 Größen von 800x800 bis 1200x2780, zu denen die Kompositionen bookmatch hinzukommen.

Die Faszination von Marmor eröffnet eine Welt der Zusammenstellungsmöglichkeiten für die Innenarchitektur.

7 efectos diferentes de mármol, 4 superficies, 6 formatos del 800x800 al 1200x2780 a los que se suman las composiciones bookmatch.

El encanto del mármol se abre a un mundo de posibilidades compositivas para el interiorismo.

该系列备有7种不同的大理石纹效果, 4种表面, 6种尺寸, 从800x800至1200x2780, 此外还有考究的纹理组合图案。大理石的魅力为室内设计打开了一个无限组合可能的世界。

# COSMOPOLITAN

THE GLAMOUR OF MARBLE

## L'ELEGANZA DI FINITURE PERFETTE

**Rivestimenti e pavimenti, per casa e spazi pubblici a traffico medio.**

La finitura LUCIDA è limitata a rivestimenti e pavimenti residenziali o comunque poco sollecitati, non a diretto contatto con aree esterne e dove non siano richieste prestazioni antiscivolo.

La lucidatura è realizzata agendo in modo meccanico; pertanto, come per qualsiasi pietra e marmo naturale, la sporadica presenza di piccole disuniformità nella lucentezza, o di puntini nella superficie, è da intendersi come una caratteristica del materiale che ne testimonia la particolare lavorazione.

### THE ELEGANCE OF A PERFECT FINISH

**Floors and walls for residential and medium-traffic public application.**

The GLOSSY finish is dedicated to residential floors and wall cladding subject to slight stress and not in contact with outdoor areas. The glossy finish is achieved using a mechanical action, just as with stone and marble, the presence of small areas with a non-uniform shine or dots must be considered as an intrinsic feature of the material deriving from its special manufacturing.

### DIE ELEGANZ PERFEKTER FINISHS.

**Boden- und Wandfliesen für Zuhause und für öffentliche Räume mit mittlerer Beanspruchung.**

Während die glänzende Oberfläche LUCIDA für Böden und Wände in Wohnräumen also für wenig beanspruchte Bereiche, jedoch nicht in Kontakt mit Außenbereichen, eingesetzt werden kann. Das Polieren erfolgt durch mechanisches Einwirken; wie bei jedem Stein und bei jedem Marmor können sporadische und leichte Ungleichmäßigkeiten im Glanz oder Punkte auf der Oberfläche auftreten, dies ist jedoch eine Eigenschaft des Materials, das von der speziellen Verarbeitung herrührt.

### L'ÉLÉGANCE DE FINITIONS PARFAITES.

**Des revêtements et des sols pour la maison et les espaces publics caractérisés par un passage moyen.**

La finition LUCIDA est dédiée à des revêtements et sols résidentiels ou dans tous les cas peu sollicités, non en contact avec l'extérieur. Le polissage est réalisé en agissant mécaniquement ; comme pour n'importe quelle pierre ou marbre, la présence sporadique de zones brillantes ou de détails de surface différents est bel et bien une caractéristique de la matière qui témoigne du type de facture particulier.

### LA ELEGANCIA DE ACABADOS PERFECTOS

**Revestimientos y pavimentos para la casa y para espacios públicos de tráfico medio.**

El acabado Lustrado es apropiado para los revestimientos y pavimentos residenciales o sometidos a poco esfuerzo, que no están en contacto con áreas exteriores. El lustrado es realizado mediante una acción mecánica; como para cualquier piedra y mármol, la esporádica presencia de pequeñas desigualdades de brillo, o de puntitos sobre la superficie, deben considerarse como una característica del material que atestigua la particular elaboración.

### 完美装饰的优雅

**墙砖和地砖, 适用于住宅和中等人流量的公共场所。**

“抛光”表面处理仅限于住宅或承受应力少、不与外部区域直接接触、且不要滑动性能的墙砖和地砖。抛光通过机械作用进行; 因此, 与任何天然石材和大理石一样, 光泽的不均匀性或表面中的小点的零星存在, 应被视为材料的固有特征, 是其经过特殊加工的明证。

## ACCORGIMENTI SPECIFICI PER L'APPLICAZIONE DELLE GRANDI LASTRE IN 6 MM DI SPESSORE.

PRECAUTIONS FOR 6MM BIG SLABS APPLICATIONS.

SPEZIFISCHE ANWEISUNGEN ZUR NUTZUNG DER GROSSFORMATE IN 6MM.

PRECAUTIONS SPECIFIQUES POUR LA POSE DES GRANDES PLAQUES EN 6MM D'ÉPAISSEUR.

在地板铺设6毫米厚的陶瓷板材的具体措施。

### 6MM

ACCORGIMENTI SPECIFICI PER L'APPLICAZIONE A PAVIMENTO DI LASTRE IN 6 MM DI SPESSORE.

Mirage® raccomanda l'utilizzo a pavimento di lastre in spessore 6 mm per le sole applicazioni in ambito residenziale, commerciale a traffico leggero e comunque in contesti ove non vi sia passaggio di carichi puntuali pesanti o transito di carrelli a ruote dure.

Le lastre a 6mm, grazie al loro spessore ridotto, sono particolarmente indicate per la posa su pavimenti o rivestimenti preesistenti in marmo, pietra naturale, ceramica, senza la necessità di demolire la pavimentazione sottostante. Tale pavimentazione preesistente dovrà però essere planare, stabile, rigida e priva di rotture. In tutti questi casi sarà necessario valutare attentamente, assieme al progettista della pavimentazione, l'idoneità del sottofondo. In caso di dubbio sarà necessario valutare la necessità della demolizione e/o l'utilizzo di spessori tradizionali. La posa a pavimento su massetto di lastre in 6mm è invece fortemente condizionata dall'esecuzione ottimale dello stesso, dalla sua completa stagionatura, dal rispetto degli opportuni giunti di dilatazione nonché dalla posa a regola d'arte. Pertanto, in questi casi, per maggiore precauzione, Mirage® suggerisce l'utilizzo del gres porcellanato in spessore tradizionale.

In generale, per l'applicazione a pavimento delle lastre in spessore 6mm, l'adesivo (da scegliere insieme al progettista in base alle caratteristiche del cantiere) dovrà essere applicato secondo il metodo della doppia spalmatura, al fine di assicurare la perfetta distribuzione dello stesso e di garantire un'adesione ottimale, evitando la formazione di eventuali vuoti che potrebbero essere causa di rotture.

PRÉCAUTIONS NÉCESSAIRES POUR L'APPLICATION AU SOL DE PLAQUES DE 6 MM D'ÉPAISSEUR.

Mirage® recommande l'utilisation au sol de plaques de 6 mm d'épaisseur uniquement pour des applications dans un contexte résidentiel et commercial à faible affluence ainsi que dans des contextes dépourvus de passages de charges ponctuelles lourdes ou de chariots à roues dures. Les plaques de 6 mm d'épaisseur, grâce à leur épaisseur réduite, sont particulièrement adaptées à une pose sur des sols ou des revêtements préexistants en marbre, en pierre naturelle et en céramique, sans impliquer la démolition de la sous-couche. Cette sous-couche préexistante devra toutefois être plane, stable, rigide et privée de ruptures. Il sera dans tous les cas nécessaire d'évaluer attentivement, avec le concepteur du sol, la conformité de la sous-couche. En cas de doute, il sera nécessaire d'évaluer la nécessité de la démolition et/ou l'utilisation d'épaisseurs traditionnelles.

La pose au sol de plaques de 6 mm sur un fond est, au contraire, fortement conditionnée par l'exécution optimale de celui-ci, par son séchage complet, par le respect des joints de dilatation adaptés ainsi que par la pose à effectuer dans les règles de l'art. Ainsi, dans ce cas, pour plus de précaution, Mirage® suggère l'utilisation du grès cérame dans une épaisseur traditionnelle. En général, pour l'application au sol des plaques de 6 mm d'épaisseur, l'adhésif (à choisir avec le concepteur en fonction des caractéristiques du chantier) devra être appliqué suivant la méthode du double encollage afin de garantir non seulement la répartition parfaite de ce dernier mais aussi une adhérence optimale, en évitant ainsi la formation de vides éventuels qui pourrait provoquer des ruptures.

SPECIFIC MEASURES FOR LAYING SLABS OF 6 MM THICKNESS ON THE FLOOR.

Mirage® stresses that slabs 6 mm in thickness may only be used as flooring in residential and commercial environments that are subject to light traffic, and furthermore, in contexts where there is no circulation of heavy loads or hard-tyre trolleys.

Thanks to the reduced thickness, the 6 mm slabs are a good solution for laying over pre-existing floors or tiling in marble, natural stone or ceramics, and avoid the necessity of demolishing the underlying floor. Such pre-existing flooring must, however, be even, stable, rigid and without breakages. Even if the floor conforms to all the above conditions, it is still necessary, together with the flooring project manager, to evaluate the suitability of the underlying layer. If there are any doubts, the need for demolition and/or the use of traditional thickness must be evaluated. Successful laying of 6 mm slabs on a screed depends greatly on the skill with which it is laid, on its being left to cure completely and on the careful calculation of the appropriated junctures for dilation as well as being laid with due expertise. As a result, in these cases, Mirage® recommends the use of a traditional thickness porcelain stoneware.

In general, when laying a floor of 6 mm thick slabs, the adhesive (to be selected together with the project manager based on the characteristics of the construction) must be applied using the double bonding technique, aimed at ensuring the perfect distribution of the adhesive to guarantee the best bond, avoiding the presence of any hollows that could cause breakages.

在地板铺设6毫米厚的陶瓷板材的具体措施。

Mirage®建议仅在住宅、人流量低的商业环境以及任何没有重负荷或硬轮手推车通过的环境中，铺设厚度为6毫米的地板专用陶瓷板材。

这些6毫米厚的陶瓷板材，由于厚度减小，特别适合直接铺设在现有的大理石、天然石材和陶瓷地砖或墙砖上面，而无需拆除下面的现有铺设地板。不过，这些现有的铺设地板必须是平坦、稳定、刚性并且没有破损。在所有这些情况下，必须与地板设计师一起仔细评估地基的适合性。如有疑问，必须评估是否需要拆除和/或使用传统厚度的地砖。在找平层上铺设6毫米厚的陶瓷板材，则很大程度上受到找平层是否施工良好、是否完全干固、是否留有适当的伸缩缝以及是否按照标准完美铺设等方面的限制。因此，在这些情况下，为了谨慎起见，Mirage®建议使用传统厚度的瓷质砖。通常，在地板上铺设6毫米厚的陶瓷板材时，必须根据双层涂抹方法来涂抹粘合剂（与设计师一起根据场地的特性而选择），以确保其涂抹完美、均匀，并保证最佳附着力，避免形成任何可能导致破裂的空隙。

SPEZIFISCHE HINWEISE FÜR DIE VERLEGUNG VON 6 MM STARKEN PLATTEN ALS BODENBELAG.

Mirage® empfiehlt die Verwendung von Platten mit Stärke 6 mm als Bodenbelag nur für Anwendungen im Privatbereich und in Gewerbe- und Objektbereichen mit geringer Trittbelastung, oder in Bereichen, in denen zumindest keine Rollwagen mit harten Rädern zum Einsatz kommen oder schwere punktuelle Belastungen auftreten.

Die 6 mm starken Platten eignen sich aufgrund ihrer geringen Stärke besonders für die Verlegung auf bestehenden Bodenbelägen oder Wandverkleidungen aus Marmor, Naturstein, Keramik, ohne dass der darunterliegende Belag zuvor entfernt werden muss. Dieser bereits vorhandene Boden muss jedoch eben, stabil, hart und bruchstark sein. In all diesen Fällen muss die Eignung des Untergrundes gemeinsam mit dem Architekten oder Planer zuvor sorgfältig geprüft werden. Im Zweifelsfall muss die Notwendigkeit einer Entfernung des bestehenden Bodenbelags und/oder die Verwendung herkömmlicher Stärken in Erwägung gezogen werden.

Die Verlegung von 6 mm starken Platten auf Estrich hängt besonders von der optimalen Ausführung des Estrichs selbst, von seiner vollständigen Reifung, der Beachtung der entsprechenden Ausdehnungsfugen sowie der nach den Regeln der Kunst ausgeführten Verlegung ab. Daher empfiehlt Mirage® in diesen Fällen die Verwendung von Feinsteinzeug mit herkömmlicher Stärke.

Im Allgemeinen muss bei der Verlegung von 6 mm starken Platten als Bodenbelag der Klebstoff (der zusammen mit dem Planer nach den Eigenschaften des Verwendungsorts ausgewählt wird) doppelt aufgetragen werden (sowohl auf dem Untergrund als auch auf der Rückseite der Platte), um eine perfekte Verteilung und eine optimale Haftung zu gewährleisten und die Bildung von Hohlräumen zu vermeiden, die zu Bruch führen könnten.
